## WALK THIS WAY

Look-at-me heels call for flawless feet. Podiatrist to the stars Margaret Dabbs shares her tips...

- 1. Exfoliate**  
Use a foot file on dry skin to target problem areas. Use a file with crystal technology for an even finish.
- 2. Shape**  
Basic but essential: keep nails tidy and cuticles in check between treatments with a crystal nail file.
- 3. Moisturize**  
Spray feet with a dedicated oil product three times a week to keep skin nourished and supple.
