

all the other computer manufacturers to follow
 commitment to PCMCIA technology is an example
 of that portable PCs are a strategic investment
 situation.
 therefore have to make sure that the portable PC
 today won't be obsolete tomorrow.
 In this in mind, we've been building our portable

Looking ahead, many innovative cards are be-
 at present that include sound, wireless LAN cards as
 network/modem cards. So it's easy to see why we bel-
 is going to have such a huge impact on everyone's
 computers.
