"I know the printer needs replacing but we're cutting back."

With regular cleaning, your work, your time and your ink will never run out. And when it does, you can replace just what you need, not the whole printer. That's the HP way. It's not just a printer, it's a solution. And it's the only way to get the most out of your investment. So when you need to replace just what you need, you can. And you can keep your business running. Because work happens.

The HP OfficeJet Pro K350 only £195
