Diet Fuel

USN Diet Fuel is a complete meal that is very low in fat, great tasting and easily digestible. This unique meal replacement formula, which is wheat free, contains vital nutrients like L-Carnitine, Chromium Picolinate, HCA (Acetyl-L-hydroxyoctadecyloleic), Biotin and Selenium. These combine to speed up the fat burning process and ensure that you maintain the high levels of micro-nutrients you need when you are on a strenuous exercise programme. USN Diet Fuel delivers a variety of high quality protein substitutes for improving protein synthesis and overall health. Just enough carbohydrate also are added to fuel your workout, replenish depleted glycogen and push your metabolism into higher gear.

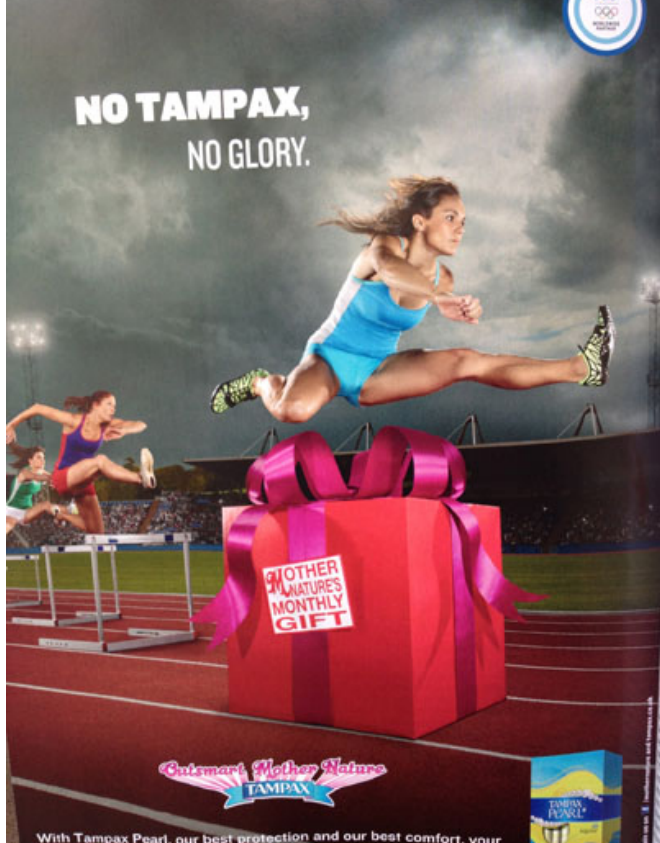

When you or your sport demands results, Diet Fuel delivers everytime.

Be the best you want to be.
